

NITTIN SHARMA

AI/ML Enthusiast — Full Stack Developer — Computer Science Graduate
nittinsharma685@gmail.com — +91 9797925921 — LinkedIn — GitHub — Portfolio

PROFILE

Full Stack Developer with expertise in the MERN stack, building scalable and responsive web applications. Strong foundation in Data Structures, Algorithms, and RESTful API development, with a focus on performance optimization and clean code practices.

TECHNICAL SKILLS

- **Programming Languages:** C++, JavaScript, Python, SQL
- **AI/ML:** Machine Learning Basics, Data Analysis, Model Evaluation
- **Libraries & Tools:** NumPy, Pandas, Scikit-learn, Matplotlib
- **Frontend Development:** HTML5, CSS3, React.js, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, REST APIs, JWT
- **Databases:** MongoDB, MySQL, Database Design
- **Tools:** Git, GitHub, VS Code, Postman
- **Operating Systems:** Linux (Ubuntu), Windows

EXPERIENCE

- **Web Developer Intern**, CodeCraft, Remote Jul 2025 - Sep 2025
 - Developed a responsive e-commerce web application using React.js, JavaScript, HTML5, and CSS3, supporting 500+ users
 - Improved page load performance by 35%
 - Created an admin dashboard that reduced manual content management efforts by 60%

KEY PROJECTS

- **CoalMineCarbon – Carbon Emission Management System** Academic Project
 - * Built a web platform to calculate activity-based carbon emissions in coal mining operations
 - * Implemented emission tracking and carbon sink estimation modules
 - * Performed emission gap analysis to support sustainability decisions
 - * Generated analytical reports for environmental impact assessment
- **ERP System – Enterprise Resource Planning Platform)** Live — GitHub
 - * Developed an enterprise resource planning system to manage organizational workflows
 - * Implemented modules for data management, reporting, and role-based access control
 - * Designed structured database models to efficiently store and retrieve enterprise data
 - * Built system architecture supporting scalable and efficient resource management
- **AI Thumbnail Generator (ThumbliAI)** Live — GitHub
 - * Developed an AI-powered thumbnail generation platform using Gemini API
 - * Built full-stack application using React.js, TypeScript, Node.js, and Express
 - * Integrated Cloudinary for secure storage and CDN delivery
 - * Designed RESTful APIs and implemented authentication system
 - * Deployed production-ready application on Vercel

EDUCATION

- **B.Tech in Computer Science and Information Technology**, ABESIT, Ghaziabad 2022–2026
 - Coursework: Web Development, DBMS, Data Structures, Algorithms
- **Higher Secondary Education**, GHSS, Garh Dhamma – 85.8% 2022
- **Secondary Education**, GHSS, Garh Dhamma – 86.6% 2020

CERTIFICATIONS

- **Java Programming** – SOFTPRO India Apr 2024 — Link
- **Machine Learning** – Great Learning Oct 2023 — Link
- **Web Development and Design** – CRC Training Jul 2024 — Link
- **Artificial Intelligence** – Simplilearn SkillUp Jul 2025 — Link

ACHIEVEMENTS & LEADERSHIP

- PMSSS Scholarship for Academic Excellence (2022)
- LeetCode Rating: 1360 — Solved 300+ problems
- Participated in Coding Competitions across multiple platforms
